#### Risk and Reward Profile

Lower risk Higher risk  
←-----→  
Typically lower rewards Typically Higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The risk category was calculated using historical performance data and it may not be a reliable indicator of the Fund's future risk profile.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean a 'risk free' investment.
- The value of shares and the income from them can rise or fall and, accordingly, an investor may not get back the full amount invested.

Funds in category 6 have in the past shown medium to high volatility. With a fund of category 6, you have a medium to high risk of losing money but your chance for gains is also moderate to high.

The Fund is also subject to risks which are not included in the calculation of the risk-reward indicator associated with the following:

Operational risk: management, business or administration processes,

including those to do with the safekeeping of assets, may fail, leading to losses.

Counterparty risk: a counterparty may fail to deliver the proceeds related to the sale of securities by the Fund or in safekeeping of the securities purchased by the Fund.

Securities risk: some of the markets or exchanges on which the Fund may invest may go up and down, and value of your investment may not increase.

Emerging Markets risk: countries where investment markets are considered to be less developed. Investments are generally riskier than those in developed markets because they: may not be as well regulated and laws may be less sophisticated, may be more difficult to buy and sell, may have less reliable arrangements for the safekeeping of investments, or may be more exposed to political and taxation uncertainties. The value of the Fund can go up and down more often and by larger amounts than funds that invest in developed countries, especially in the short term.

**A more detailed description of the risk factors that apply to the Fund is set out in the "Risk Factors" section of the Prospectus.**
